

## **BOW320 BusinessObjects Web Intelligence XI 3.0: Advanced Report Design (QA320V3.0)**

### **Prerequisites**

To be successful, you must have attended the following offering or have the equivalent knowledge of:

- BusinessObjects Web Intelligence XI 3.0: Report Design
- Experience of designing Web Intelligence reports

### **Duration**

1 day

### **Goals**

BusinessObjects Web Intelligence™ is a query, reporting and analysis tool that allows you to access the data in your corporate databases directly from within BusinessObjects Enterprise™ InfoView and to present and analyze this information in a Web Intelligence document.

This one-day instructor-led classroom course is designed to give you the comprehensive skills needed to apply alternative query and reporting techniques when creating complex Web Intelligence documents.

After completing this course, you will be able to create combined queries and use sub-queries.

You will also be able to use character and date string functions, create variables using "If" logic, and redefine calculation contexts. The course also provides an optional appendix describing how to link Web Intelligence documents using the OpenDocument URL command.

### **Audience**

The target audience for this course is report designers who are experienced Web Intelligence users and who need to create complex Web Intelligence documents.

### **Content**

#### **Advanced Query Techniques**

- Using combined queries
- Using sub-queries
- Creating a query based on another query
- Changing data sources
- Using the query drill
- Using query sampling
- Understanding dimensions and details

#### **Character and Date String Functions**

- Using character string functions
- Concatenating different data types
- Using date functions

#### **Calculation Contexts**

- Understanding calculation contexts
- Redefining calculation contexts

**Using If Logic**

- Grouping data with If() logic
- Modifying calculation behavior with If() logic
- Using IF/ELSEIF

**Additional Reporting Techniques**

- Using data tracking
- Displaying data restricted by a filter or ranking
- Using additional report functions

**Linking to Documents**

- Linking to documents and URLs in Web Intelligence
- Creating hyperlinks in the HTML Report Panel
- Creating hyperlinks in the Web Intelligence Rich Client and Java Report Panel

**Additional Education**

Not applicable for this offering.

**Applicable Certification**

Not applicable for this offering.

This course does not focus specifically on integration with SAP NetWeaver BI.
